

STATEC BINDER

highly efficient bagging and palletizing solutions

www.statec-binder.com

circupac

Perfect solution for bagging of flour and powdered products!

- ✓ Fully automatic high-performance bagging machine
- ✓ For prefabricated open-mouth bags: woven PP-bags, PE-bags and paper bags
- ✓ Filling weight: 10 - 50 kg

Innovative system

- ✓ Continuous rotation of the carousel
- ✓ Extended filling time trough 6 filling spouts
- ✓ Permanent compression of the product
- ✓ Fully automatic bag placing, filling, spreading, labeling & closing

up to **1200** bags / h

All movements are driven by one intelligent master servo drive-controller. The other drives follow the master controller with a virtual gearbox.

Benefits

- ✓ Capacity can be adjusted by changing only one parameter
- ✓ Easy handling for operation
- ✓ Easy maintenance
